

Few would doubt the value of education as a powerful tool in helping disadvantaged children change their lives and in teaching them to become self-reliant. At the Akran Foundation, we believe that sponsoring full time education for children will help break the cycle of poverty.

Making a difference:

- Grants and educational support for underprivileged students.
- Free medical and dental care.
- Provision of supplies to hospitals.
- Providing essential basic amenities.
- Promotion of educational opportunities.
- Promotion of self-sufficiency.
- Provision of water supply systems for clean drinking water and hygiene.
- Construction of school houses for children in remote villages.
- Funding for educators.
- Provision of school supplies and libraries.

Delivering smarter solutions is part of our social responsibility. The Akran Foundation has the highest standards of conduct, integrity, transparency and ethics. Working as we do within a global and complex ecosystem of clients, partners and suppliers, Akran is dedicated to high achievement in its efforts and constant improvement of social conditions. Our business depends on our ability to extend our core values directly and through the work of the Akran Foundation.
